

Andromeda Angell

Finance Leader | Enterprise FP&A, GAAP, Automation & Executive Reporting

727.342.4107 • andromeda.c.l.angell@gmail.com • www.linkedin.com/in/andromeda-angell-macc-mba • Riverview, FL

Finance and accounting leader with 10+ years building and scaling FP&A, accounting, and reporting functions across multi-entity organizations generating \$125M+ in annual revenue. Blends deep technical accounting expertise — GAAP/IFRS, month-end close, ASC 606, internal controls — with advanced analytical capability in Excel/VBA, Power BI, and SQL. Trusted partner to C-suite and private equity stakeholders, translating complex financial and operational data into clear, actionable insights that improve close efficiency, strengthen data integrity, and support scalable growth.

PROFESSIONAL EXPERIENCE

The Shed App - Remote

Finance Operations Manager | May 2026 - Present

- Lead and execute end-to-end financial operations and reporting, producing EBITDA bridge analysis, KPI dashboards, and monthly performance insights for executive decision-making
- Own financial planning and forecasting processes, translating operational data into actionable insights and directly supporting leadership on day-to-day business decisions
- Oversee and actively manage multi-entity GAAP accounting across SaaS and manufacturing operations, including revenue recognition, cost accounting, and inventory valuation
- Build and maintain financial systems, reporting tools, and data integrations across CRM, proprietary platforms, and QuickBooks, improving accuracy and reducing manual effort
- Establish and implement financial controls, close processes, and reporting standards, ensuring audit readiness and reliable financial data in a scaling environment
- Direct hands-on finance operations—including payroll, AP/AR, and performance-based compensation—while managing and developing a lean, high-performing team

Innovative Foodservice Group - Hybrid

Finance Manager (FP&A & Accounting) | Jul 2024 – May 2026

Internal title: Senior Financial Analyst & Accounting Supervisor

Promoted within 12 months into an enterprise FP&A and people leadership role supporting a \$125M+ annual revenue, private-equity-backed organization.

- Led FP&A planning, budgeting, and forecasting across 23 business units, improving forecast accuracy and aligning strategy with executive leadership and private equity stakeholders
- Built and scaled automated financial models, SQL-driven data pipelines, and Power BI dashboards, enhancing data integrity and enabling enterprise-wide decision-making
- Presented financial performance, risks, and opportunities to C-suite and business leaders, translating complex data into actionable insights that drove margin improvement and growth
- Oversaw accounting operations and ASC 606 compliance while streamlining close processes through automation; supervised and mentored a team of 3 (2 accountants, 1 analyst), improving reporting quality, efficiency, and cross-functional collaboration

Lead Accountant | Jul 2023 - Jul 2024

- Ensured data accuracy and integrity across multiple systems, strengthening enterprise-wide reporting and KPI reliability.

- Owned month-end and year-end close processes, delivering timely, GAAP-compliant financials for 23+ business units and improving leadership visibility into performance trends.
- Designed and standardized key accounting processes, including bank/credit card reconciliations and payroll/benefits journal entries, and trained support staff on controls and execution.

Robert Half - Remote

Senior Accounting Consultant | Aug 2021 - Jun 2023

- Executed hands-on financial planning, accounting, and reporting across diverse client environments, partnering directly with leadership to support day-to-day decision-making.
- Strengthened internal controls and financial processes, improving reporting accuracy, compliance, and operational reliability.
- Built and maintained financial models, forecasting tools, and variance analyses to enhance cash flow visibility and support business-critical outcomes such as PPP loan forgiveness.

Angell Analytics - Remote

Financial Consultant | Sep 2020 - Dec 2021

- Built and owned financial models, forecasting tools, and reporting processes for small to mid-sized businesses, improving financial visibility and decision-making.
- Supported and improved month-end close, reconciliations, and reporting, increasing accuracy and timeliness in fast-growing environments.
- Advised business owners on financial operations, cash flow, and internal controls, helping establish scalable finance practices.

PSIvet - On-site

Senior Accountant | Aug 2018 - Sep 2020

- Automated month-end and year-end close processes, expense workflows, and credit card reconciliations, accelerating reporting timelines and reducing turnaround time by 3 days.
- Implemented financial controls and process improvements that increased reporting accuracy, reduced reconciliation discrepancies, and strengthened audit readiness across a national veterinary purchasing organization.

Bealls Inc - On-site

Accountant | May 2017 - Jul 2018

- Supported SEC filings (10-K, 10-Q) and prepared financial reports.
- Drafted accounting policies aligned with evolving regulations.
